PROFESSIONAL SUMMARY

Data Analyst with an MCA and hands-on experience turning 50,000+ record datasets into business-ready dashboards using Python, SQL, and Power BI. Built end-to-end pipelines across HR, financial, and consumer analytics domains, covering data cleaning, EDA, KPI design, and dashboard delivery. Looking for a MIS Executive, Data Analyst role to apply strong SQL, Python, and visualization skills to real business problems.

TECHNICAL SKILLS

Languages	Python, SQL, PostgreSQL
Libraries	Pandas, NumPy, Matplotlib, Seaborn
BI & Visualization	Power BI (DAX (Data Analysis Expression), Power Query, Data Modeling, KPI Dashboards)
Databases	MySQL, Relational DB Design, Joins, Subqueries, Window Functions
Data Analytics	Advanced Excel, KPI Reporting, Dashboard Design, Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA)
Tools	Jupyter Notebook, GitHub, PowerPoint, MS Office Suite, Pg Admin 4
Soft Skills	Analytical Thinking, Communication, Problem Solving, Leadership, Storytelling

PROJECTS

1) HR Analytics Dashboard | Python | Pandas | SQL | Power BI | Seaborn

- Built an end-to-end HR analytics pipeline — cleaned and feature-engineered raw employee data (tenure, bonus amount, salary bands) in Python, flagging 172 duplicate records (17.2% of the dataset), before loading into PostgreSQL.
- Designed a 3-page Power BI Dashboard analyzing headcount, gender pay gap, diversity, and year-over-year hiring trends across 1,000+ employee records, using SQL window functions and 2 reusable views built from 15 analytical queries.

2) Telecommunication Financial Dashboard | Python | Pandas | SQL | Power BI | Seaborn

- Built a full ETL pipeline extracting XBRL-style P&L filings for Indian telecom companies from PostgreSQL, deriving EBITDA, EBIT, PBT, PAT, and margin ratios using SQL.
- Designed a Power BI dashboard with KPI cards and YoY trend visuals to compare Revenue, EBITDA, and Operating Profit % across 8 telecom companies over 7 financial years (2019–2025), surfacing margin trends used to benchmark performance at a glance.

3) Zomato Analytics Dashboard | Python | Pandas | SQL | Power BI | Seaborn

- Cleaned and analyzed 50,000+ multi-city restaurant records using Python and PostgreSQL to uncover trends in ratings, pricing, and online ordering adoption. Built a 2-page interactive Power BI dashboard with 7 KPIs and 10+ visuals covering restaurant type, outlet distribution, and rating bands.
- Surfaced key business insights — 58%+ of restaurants offer online ordering, only 12% support table booking, and top-rated outlets cluster in specific locations.

INTERNSHIP

Data Analyst Intern – Virtual Internship | Apex Planet Software Pvt Ltd

2 Months

- Completed 2 end-to-end analytics projects involving EDA, feature engineering, machine learning, and dashboard reporting.
- Performed data cleaning and transformation using Python, Pandas, and Jupyter Notebook to prepare sales data for analysis.
- Developed SQL queries using filtering, aggregation, and multi-table joins to answer business questions.
- Performed multivariate and correlation analysis using scatter plots and heatmaps to explore relationships between variables, surfacing insights that informed the final sales reporting deliverable.

EDUCATION

Master of Computer Application (MCA) | JSPM University, Pune

2024 – 2026

CGPA: 7.64 / 10

Bachelor of Computer Application (BCA) | SPPU University, Pune

2021 – 2024

CGPA: 8.28 / 10

CERTIFICATION

- Business Intelligence & Analytics (IITM) | NPTEL | [April 2026]
- Programming with Python Professional Certificate | Linked In Learning | [Jun 2025]
- Deloitte Data Analytics Job Simulation | Forage | [Jul 2026]
